PROFILE

Full Stack Developer with hands-on experience building scalable multi-role SaaS platforms using Angular and .NET. Skilled in developing RESTful APIs with ASP.NET Core, managing SQL databases, and delivering complete end-to-end features from backend to frontend. Electrical Engineering background brings a disciplined, systems-thinking approach to software architecture and problem-solving.

EXPERIENCE

Full Stack Developer

SGT Egypt (Sure Global Tech) | Cairo, Egypt | September 2025 - Present

- Architected and developed Nextlearnhub, a multi-role EdTech SaaS platform with four independent portals: Super Admin, Providers, Provider Profile Subdomain, and End Users.
- Built a comprehensive Super Admin dashboard for full platform governance: user management, provider onboarding, content oversight, and system-wide configuration controls.
- Implemented a dynamic Provider Profile Subdomain system enabling each provider to publish a branded public-facing page via unique subdomains.
- Engineered the End User portal with course browsing, enrollment workflows, and personalized learning dashboards.
- Collaborated with UI/UX designers to convert Figma prototypes into pixel-perfect, fully responsive interfaces.
- Integrated and consumed RESTful APIs to synchronize data across all platform roles, ensuring real-time consistency.

Full Stack Developer Intern

SGT Egypt (Sure Global Tech) | Cairo, Egypt | August 2025

- Contributed to initial development of Nextlearnhub, gaining hands-on experience with full project architecture from day one.
- Built core frontend components using Angular, Tailwind CSS, and Bootstrap, integrated with ASP.NET Core backend APIs.
- Participated in code reviews, sprint planning, and daily standups following Agile/Scrum methodology.

EDUCATION

Bachelor's Degree in Electrical Engineering and Communications

Faculty of Engineering, Minya | Minya, Egypt | 2022

LICENSES AND CERTIFICATIONS

Microsoft Certificate of Achievement — ASP.NET Full Stack Developer

Microsoft (via CLS Learning Solutions, Gold Microsoft Partner) | Course 20486: Developing ASP.NET Web Applications

Issued: February 2025 | Completed: July 2025

ASP Full Stack Developer — Training Completion Certificate

CLS Learning Solutions | SQL Essentials, C#, HTML5/JS/CSS3, ASP.NET Core MVC, ASP Core Web APIs

Issued: February 2025 | Completed: July 2025 | Certificate No. 099091

PROJECTS

Nextlearnhub — Multi-Role EdTech SaaS Platform | August 2025 - Present

Angular, .NET, ASP.NET Core, SQL Server, Tailwind CSS, Bootstrap, Figma

- Delivered a fully functional multi-tenant platform with four distinct user roles: Super Admins, Providers, and End Users on a shared infrastructure.
- Designed subdomain routing for Provider Profile pages, enabling scalable white-label experiences per provider without separate deployments.
- Established reusable Angular component libraries aligned with the Figma design system, accelerating feature development velocity.

TECHNICAL SKILLS

Languages: C#, JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL

Frontend: Angular, Tailwind CSS, Bootstrap, Responsive Design

Backend: .NET, ASP.NET Core, RESTful APIs, JWT Authentication

Databases: SQL Server, MySQL

Tools: Git, GitHub, Visual Studio, VS Code, Figma, Postman

Concepts: Agile, Scrum, SaaS Architecture, Component-Driven Development, API Integration, UI/UX Collaboration
