PROFILE

Full Stack Developer with hands-on experience building scalable multi-role SaaS platforms using Angular and .NET. Skilled in developing RESTful APIs with ASP.NET Core, managing SQL databases, and delivering complete end-to-end features from backend to frontend. Electrical Engineering background brings a disciplined, systems-thinking approach to software architecture and problem-solving.

EXPERIENCE

Full Stack Developer

September 2025 – Present

SGT Egypt (Sure Global Tech)

Cairo, Egypt

- Architected and developed Nextlearnhub, a multi-role EdTech SaaS platform with four independent portals: Super Admin, Providers, Provider Profile Subdomain, and End Users — serving diverse stakeholders on a unified system.
- Built a comprehensive Super Admin dashboard for full platform governance, including user management, provider onboarding, content oversight, and system-wide configuration controls.
- Implemented a dynamic Provider Profile Subdomain system, enabling each provider to publish a branded public-facing page via unique subdomains and increasing platform discoverability.
- Engineered the End User portal with course browsing, enrollment workflows, and personalized learning dashboards, improving overall user engagement and onboarding experience.
- Collaborated closely with UI/UX designers to convert Figma prototypes into pixel-perfect, fully responsive interfaces with consistent cross-device rendering.
- Integrated and consumed RESTful APIs to synchronize data across all platform roles, ensuring real-time consistency and application reliability.

Full Stack Developer Intern

August 2025

SGT Egypt (Sure Global Tech)

Cairo, Egypt

- Contributed to the initial development phases of the Nextlearnhub platform, gaining hands-on experience with the full project architecture and codebase from day one.
- Built core frontend components using Angular, Tailwind CSS, and Bootstrap, and integrated them with backend APIs developed on ASP.NET Core.
- Participated in code reviews, sprint planning, and daily standups following Agile/Scrum methodology.

EDUCATION

Bachelor's Degree in Electrical Engineering & Communications

2022

Faculty of Engineering, Minya

Cairo, Egypt

PROJECTS

Nextlearnhub — Multi-Role EdTech SaaS Platform

August 2025 – Present

Angular • .NET / ASP.NET Core • SQL Server • Tailwind CSS • Bootstrap • Figma

- Delivered a fully functional multi-tenant platform with four distinct user roles supporting Super Admins, Providers, and End Users on a shared infrastructure.
- Designed subdomain routing for Provider Profile pages, enabling scalable white-label experiences per provider without separate deployments.
- Established reusable Angular component libraries aligned with the Figma design system, significantly accelerating feature development velocity.

TECHNICAL SKILLS

Languages: C#, JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL

Frontend: Angular, Tailwind CSS, Bootstrap, Responsive Design

Backend: .NET, ASP.NET Core, RESTful APIs, JWT Authentication

Databases: SQL Server, MySQL

Tools: Git, GitHub, Visual Studio, VS Code, Figma, Postman

Concepts: Agile/Scrum, SaaS Architecture, Component-Driven Development, API Integration, UI/UX Collaboration
